

Equifax
PO Box 740241
Atlanta, GA 30374

Dear Customer Service Representative:

VIVE FINANCIAL 7428440:

Equifax is reporting information on my credit report which I do not recognize. I contacted the company directly and they were unable to find any information regarding the account they are reporting. I don't understand why they can't find information for information that *they* are reporting, but they told me to contact the credit bureaus.

This information must belong to someone else; maybe someone with a similar name or social security number? I only know that **it is not mine**. I just recently sent to you my current identity documentation to update my personal information on my report so you should be able to clearly identify that the information does not belong to me.

PORTFOLIO RC SYNCH-19183441164290:

LVNV FUNDING 6008896834373208:

The following account is reporting inaccurately. The account status should not be a collection and there should be no balance because it was paid. Equifax isn't even reporting the date that the account first went delinquent - what is that date? I believe this account has been re-aged by LVNV FUNDING.

HLTHCARE COL BS0986:

Equifax is reporting information on my credit report as *Medical Collection* when it was actually paid by my insurance and should have NEVER become a collection. I had excellent insurance at that time so either the medical office never billed my insurance or they made an error in sending the account to collections. I am aware of the March 2015 New York Attorney General national settlement with the credit bureaus that requires deletion of paid medical collections, even when there has been a delay by the insurance company. This account must be deleted. Any collection information is in **error** and should be **deleted**.

Please provide me an updated credit report with the corrected information. Your expeditious response to this request is appreciated.

Sincerely,

Maria Partida Ponce
